THE VILLA-CUSTOM DESIGN WITHOUT COMPROMISE

The 7,200-square-foot custom residence is a showcase of exceptional craftsmanship, timeless materials, and thoughtful design. Offering four bedrooms and four bathrooms, the home was created on a grand scale while maintaining an unmistakable sense of warmth and refinement. Crema Marfil marble, imported from Mexico, and carved in Miami extends throughout the interior and exterior, complemented by beautiful white oak doors, custom carpentry, and finely executed architectural details. An expansive gourmet kitchen with premium Thermador appliances and Mahogany cabinetry serves as an impressive gathering space, while a substantial game and entertainment room with wet bar and a dedicated wine cellar elevate the home's entertaining amenities. A private office, discreetly designed hidden safe room, and two dedicated laundry rooms further illustrate the exceptional level of planning incorporated into the residence.
