Re: Notice of No Further Action
15A NCAC 2L .0407(d)
Risk-based Assessment and
Corrective Action for Petroleum
Underground Storage Tanks

Markham General Store
Facility # 0-0-42650
5531 NC Highway 751, Apex
Chatham County
Incident # 47173
Risk Classification: Low

Dear Mr. Markham:

The Underground Storage Tank Closure Report received by the UST Section, Division of Waste Management, Raleigh Regional Office on August 3, 2020 has been reviewed. The review indicates that after tank closure soil contamination does not exceed the lower of the soil-to-groundwater or residential maximum soil contaminant concentrations (MSCCs), established in Title 15A NCAC 2L .0411.

The UST Section determines that no further action is warranted. This determination shall apply unless the UST Section later finds that contamination at the site poses an unacceptable risk or a potentially unacceptable risk to human health or the environment. Pursuant to Title 15A NCAC 2L .0407(a) you have a continuing obligation to notify the Department of Environmental Quality of any changes that might affect the risk.

This No Further Action determination applies only to the current investigation; for any other incidents at the subject site, the responsible party must continue to address contamination as required.

If you have any questions regarding this notice, please contact me at the address or telephone number listed below.

Sincerely,

Mark Powers
UST Section Regional Supervisor
Raleigh Regional Office
