PROPERTY DESCRIPTION

Kansas Online Auction | Bidding Opens 11/26/26 - 12/1/26 Soft Close |Unit 16 Whitetail Honey Hole | 56± Acres | Immediate Hunting Access

Sec.20 - T33S - R09W, ACRES 56.1,

If you already own hunting ground in this area, why wouldn't you take a hard look at adding this affordable 56-acre tract? Another place to hang a stand, give your main farm a break, and put yourself in position to find another Kansas giant.

This property is proven. We've got the trail camera photos and kill history to back it up. Deer travel in from neighboring ground and stage in the big grass, scattered cedars and draws before stepping out to feed in the standing milo along the north side. That staging cover gives you a place to set up and harvest a buck before he reaches the field.

It's secluded, overlooked and left alone-the kind of place that's easy to drive past while deer are tucked away inside. The property lays out in a triangle, with railroad tracks running northeast to southwest along one boundary. A lightly maintained county road borders the north edge and sees very little traffic. A few water holes add to the habitat, with potential for puddle ducks when conditions are right and good water in the immediate area.

You already know what this part of Kansas can produce. Here's an opportunity to add another proven hunting spot to the ground you already own and give yourself another option when it's time to climb into a stand.

We're offering these **56± acres by online auction**, with **immediate hunting access available once the successful bidder puts down hard earnest money**. With the proper permit, you can hunt the remainder of the season and be in place for the Kansas rifle season.

Give me a call. Let's look through the trail camera photos, talk about how the deer use this property, and get you the auction details.

Buyer's agents are welcome on my online auctions.
