3. The approval by the Association of any plans or specifications submitted for approval as herein specified shall not be deemed to be a waiver by the Association of the right to object any of the features or elements embodied in such plans or specifications if and when the same features and elements are embodied in subsequent plan and specifications submitted for approval for use on other lots.

4. (b) In the event that the Association shall fail for a period of forty-five (45) days to approve or disapprove any plans, specifications or plot plans submitted to them of approval, the same shall be deemed to have been approved.

6. During construction and prior to the occupancy of any dwelling constructed or erected on any plot, the Association shall be entitled to inspect the same to ascertain that the construction thereof is proceeding or has been completed in accordance with the plans and specifications. No dwelling shall be occupied until a final inspection has occurred and the Association has certified in writing that its construction has been completed in accordance with the plans and specifications.

7. The plans and specifications to be submitted to the Association shall show the nature, kind, shape, height, materials, floor plans, color scheme, locations of such structural work to be done, the grading plan of the plat to be built upon, and the proposed square footage of the dwelling and the Association shall have the right to refuse to approve any such plans and specifications, grading plan, or proposed square footage which are not suitable or desirable, in Association's opinion for aesthetic or any other reasons and in so passing upon plans and specifications and grading plans, shall have the right to take into consideration the suitability of the proposed building or other structure and of the materials of which it is to be built, the harmony of said structure with the surroundings and the effect of the building or other structures as planned and on the outlook from the adjacent or neighboring property.

8. An architectural committee may be appointed by the Association in accordance with the By-Laws of said entity. Said architectural committee may exercise all powers, duties, and responsibilities imposed upon the Association herein.

The Association shall prepare the initial design and development guidelines and application and review procedures (the "Design Guidelines") which shall be applicable to all construction activities within the Properties. The Design Guidelines may contain general provisions applicable to all of the Properties, as well as specific provisions which vary from one portion of the Properties to another depending upon the location, unique characteristics, and intended use of such portion of the properties.

Plans and specifications showing the nature, kind, shape, color, size, materials, and location of all proposed construction and modifications shall be submitted to the appropriate committee for review and approval (or disapproval). In addition, information concerning, without limitation, irrigation systems, drainage, lighting, fences, outdoor pools, and any other special features of such proposed construction or modification, as applicable, shall be submitted.

The Association may authorize variances from compliance with these covenants and any of its guidelines and procedures when circumstances such as topography, natural obstructions, hardship, or aesthetic or environmental considerations require, but only in accordance with duly adopted rules and regulations. Such variations may be granted, however, only when unique circumstances dictate, and no variance shall be effective unless in writing, executed by act of the Association and filed of record. For purposes of this Section, the inability to obtain approval of any governmental agency, the issuance of any permit, or the terms of any financing shall not be considered a hardship warranting a variance.

The Association shall not bear any responsibility for ensuring the structural integrity or soundness of approved construction or modifications, nor for ensuring compliance with building codes and other governmental requirements. Neither the Association, the Board of Directors, any committee, or member of any of the foregoing shall be held liable for any injury, damages, or loss arising out of the manner or quality of approved construction or modifications to any Lot.

Any construction, alteration, or other work done in violation of this Article shall be deemed to be nonconforming. Upon prior written request from the Board, as set forth in the By-Laws of the Association, Owners shall, at their own cost and expense, bring such construction, alteration or other work into conformity with this Article to the satisfaction to the Board or remove such construction, alteration, or other work and shall restore the land to substantially the same condition as existed prior to the construction, alteration, or other work. Should an Owner fail to remove and restore as required hereunder, the Association shall have the right to enter the property, remove violation, and restore the property to substantially the same condition as existed prior to the construction, alteration or other work. All costs, together with the interest at the maximum rate then allowed by law, may be assessed against the benefited Lot and collected as a Benefited Assessment.

In addition to the foregoing, the Board of Directors shall have the authority and standing, on behalf of the Association, to pursue all legal and equitable remedies available to enforce the provision of these covenants, conditions and restrictions.

The Association shall have the right, but not the obligation, and a perpetual easement is hereby granted to the Association, to enter upon any Owner's Property without a prior notice for emergency, security and safety reasons. The Association's rights may be exercised by the Association's Board of Directors, officers, agents, employees, managers and all police officers, fire fighters, ambulance personnel, and similar emergency personnel in the performance of their respective duties. Except in an emergency situation, entry shall be only during reasonable hours and after notice to the Owner. This right of entry shall include the right of the Association to enter upon any Owner's Property to cure any condition which may increase the possibility of a fire or other hazard in the event an Owner fails or refuses to cure the condition within a reasonable time after being requested by the Board, but shall not authorize entry into any dwelling without permission of the Owner, except by emergency personnel acting in their official capacities.

The Association shall after prior notice as set forth in the By-Laws of the Association, also have the power to enter an Owner's Property to abate or remove, using such force as may be reasonably necessary, any structure, thing or condition which violates the Declaration, the By-Laws, or the rules and regulations. (hereinafter referred to as the "Association"). Until creation of such Association, all powers, duties and privileges to be exercised by such Association shall be vested in the developer, Hidden Hills of Glassy Mountain, LLC.

2. The owner of each presently constituted lot as shown on the aforesaid plat shall be a member of said corporation, and shall be entitled to one vote for each lot. Additionally, the Association shall be responsible for maintenance of any and all community roads and streets which are not, and are not anticipated to be accepted into the public road system.

5. The landowners shall maintain the natural attributes to the area through tree and shrub conservation called a buffer zone. The buffer zone is different than the setback and is to preserve the vegetation in the buffer zone. A 25-foot buffer shall be used on all property lines where houses are located and adjacent situations. Said buffer shall have less than ten percent tree and shrub removal, excluding pine trees. 1. Assessments for maintenance consistent with the By-Laws of the Association shall be levied from time to time. The annual fee for road maintenance shall initially be Three Hundred Dollars (\$300.00) per year, per lot, commencing January 2001. In each subsequent year thereafter, the amount of the annual road maintenance fee shall be set by a majority of the votes of the members of the Association taken at a regularly scheduled meeting at which a quorum is represented, either in person or by proxy. Ninety (90%) percent of the road maintenance fund must be used only on items directly affecting the roadway. (Examples: grading, gravel, ditch and drain pipe repairs and maintenance of used for beautification miscellaneous expenses and entrance gate, if installed.) The remaining 10% may be held in case of emergency by the Association. Notwithstanding anything contained herein to the contract, the Developer/Owner shall not be subject to any maintenance fees.

Any assessment not paid within thirty (30) days after the due date thereof shall bear interest from the due date at the then current prime interest rate, plus 1%. The acceptance of a deed by a grantee shall be construed to be a covenant by the grantee(s) to pay said assessment, which shall run with the land and be binding upon the grantee, his successors, heirs and assigns.

5. Said assessments, if unpaid when due, shall constitute a lien upon the subject lot, which may be foreclosed in the same manner as a real estate mortgage, with interest, costs, and attorney's fees to be added to the amount of such unpaid assessment.

Sale or transfer of any lot shall not affect the assessments lien; however, the sale or transfer of any lot pursuant to foreclosure of any lien enumerated above shall extinguish the lien for assessments as to assessments which became due prior to such sale or transfer but for which no Notice of Lis Pendens has been filed. Nothing herein shall affect the collection of any charges that shall become payable after the acquisition of title by a subsequent bona fide purchaser for value.
