This great lake location is at the 39 ½ mile marker with a secluded feeling. The water depth along your shoreline is mostly deep on a channel bank, allowing for great utilization. Paved roads lead you to and surround the property. This excellent access allows for multiple access points and maximum utilization of the land and its topography. The timber here is mature and scenic, with newly cleared areas that can be expanded and used for new build sites. You will enjoy walking or riding the existing trails throughout the timber and the shoreline. Inhabited by many deer and turkey, the hunting or wildlife viewing is incredible. Its topography is ideal for anything you can imagine, from development to personal enjoyment. From building multiple homes, venturing into a resort-style development, or simply enjoying your very own private retreat, the possibilities here are endless.
