**RE: Permits 27491 and 38565**

Mr. Facque:

Please be advised that your Reports of Conveyance received on August 28, 2020, are hereby confirmed to update ownership of portions of **Permit 27491** for 111.08 acre-feet at a diversion rate of 0.456 cubic feet per second appurtenant to 27.77 acres and **Permit 38565** for 368.92 acre-feet at a diversion rate of 1.508 cubic feet per second appurtenant to 92.23 acres in the name of **Oroplata Resources, Inc.** Details of the above water rights, including the current ownership, are viewable online. First, click on "Water Rights Database"; then "Permit Search".

Also be advised that the confirmation of your Report of Conveyance does not guarantee that the water right is in good standing with the office of the State Engineer; the amount of water referenced in the notice or in the report of conveyance is the actual amount of water that a person is entitled to use; and, this is not a determination of ownership and that only a court of competent jurisdiction may adjudicate conflicting claims to ownership of a water right. See NRS 533.386(2)(a)-(b).

This confirmation reflects only the information that has been filed with this office and may be subject to amendment upon receipt of additional documentation. The owner is responsible for notifying the State Engineer's office of any change of address in writing. If you have any questions, please contact this office at (775) 684-2800.

Sincerely,

Mary Crawley  
Engineering Technician IV
