7 The Property which is the subject of this Contract is not connected to a municipal or public sewer system. Sewage
8 disposal is accomplished with an onsite wastewater system or similar installation. Wastewater systems may be
9 subject to local, state and federal regulation. Installations which were proper at the time of original construction may
10 not comply with governmental regulations which have been enacted since that time. **It is recommended that**
11 **BUYER check with lender and/or local government authority regarding wastewater system inspection.**

12

13 Lenders are becoming more sensitive to environmental regulations, and it should be anticipated the BUYER'S
14 financing may be conditioned upon proof that the wastewater system meets current regulatory requirements.

15

16 Even if a wastewater system inspection is not required by lender or local government, BUYER is advised to consider
17 an independent inspection of the wastewater system.

18

19 **In the event proof of regulatory compliance of the wastewater system is required by a lender, or is sought**
20 **for any other reason, and it is determined the system does not comply, it may be necessary to bring the**
21 **system into compliance. Significant expense may be involved.**
