

50+/- Acres Taylor County

This Jim Ned ISD property boasts 50 acres of native pasture, featuring two large tanks with the largest one approximately 7 acres when full, and a smaller one around 4 acres that holds water exceptionally well. The land has a gentle roll to it, offering great potential for homesites. Coleman County water is available, and Taylor Electric is accessible at the highway. The property is high fenced from a previous elk operation, with good fences on three sides while the north boundary remains unfenced. Additionally, there are approximately 57 more acres available with a very nice house, barns, and an arena complete with guest house on the property. For further details on the rest of the additional acreage, contact listing agent.
